

Skill up on sustainability for FREE

Join the **Supply Chain Sustainability School**, an award-winning initiative dedicated to advancing sustainability practices across the built environment industry.

With over 220 endorsements from contractors, clients, and suppliers, and 72% of members reporting enhanced sustainability understanding, you can trust in our expertise.

Our members span various sectors, including construction, infrastructure, facilities management, and homes, and our valuable resources are freely available across England, Wales, and Scotland.

Access tailored assessments and action planning tools for your sustainability priorities with a simple 10-point plan. Benefit from CPD-accredited training sessions and e-learning modules covering crucial topics such as sustainability, digital, fairness, inclusion and respect, offsite, retrofit, management, procurement, people and operational efficiency.

Join us for FREE and work towards achieving bronze, silver, or gold membership status, showcasing your commitment to sustainability on tenders, pitches, social media, email signatures, and marketing materials.
