

# Uploading your Priority Suppliers

**A brief guide**

# GDPR & DATA SHARING OVERVIEW

By sharing your data (*re: your priority suppliers*) with us, you are stating that you are complying with GDPR and have all the necessary consents in place. In turn we confirm that we have all the necessary processes in place to ensure our compliance to GDPR.

Please refer to our [Privacy Policy](#) for more information on how we treat data.

By uploading priority suppliers you agree for the School to contact those “potential” suppliers who do not have accounts to encourage them to create an account and take advantage of the free learning the School offers. To opt out of this process please contact [becky@supplychainschool.co.uk](mailto:becky@supplychainschool.co.uk).

Please refer to our [Data Sharing Agreement](#) for full details.

**Our system can map out your priority suppliers using email domain only. Please refer to slide 5 for further information.**

On your corporate dashboard there is section called "**priority suppliers**". You will find it halfway down on the left-hand side of your screen.

### **PLEASE NOTE:**

- **The email address field MUST be completed as per the examples above for the system to recognise your upload**
- All other columns must be populated. If you do not have a company name / contact name, please insert a full stop or something similar (*as above in row 3*)
- Please avoid using generic email domains such as Hotmail, Gmail etc
- **Always remember to download your full supplier list before editing and re-uploading. Our Partner reports contain live information, therefore any new upload will overwrite any existing data within your dashboard**
  - *For example, if you currently have 350 suppliers on your list and you wish to add another 10 suppliers. If you upload only the list of 10 suppliers, the original 350 will be deleted and your data will be lost.*

Once you have made changes save the file locally and then click on **"upload my suppliers list"**.

Select your file and upload and your list will be updated. If you have uploaded any generic email domains, or duplicate accounts, you will be allowed to select which company you would like to report against using a drop down menu.
